# BUILD BRAND & BRAND STRENGHT

## Marketing System Mixed Marketing Platform

BATHX professional operation team: BATHX establishes an independent operation team engaging in research, design, supporting, production, sale and promotion. The sophisticated professionals and unique operating mode can ensure good operation of each process. Special design, special service and special products.

## Strength Support In Innovation Beyond

BATHX has most excellent design team and brand strategy team as well as support to strong production technology. The combination of western and national essence makes BATHX take lead in the bathware sector. By means of intelligence and dream, BATHX expresses a new fashionable life style full of dreams.

## Networks Layout Going all out to win the market

With the powerful marketing networks and logistics capability, the company has set up special service teams in key cities throughout the country and established sale centers and exclusive shops. The products are marketing overseas countries and regions.

## After-sale Service

### There is never an end to the service for the customers

BATHX carries the operating idea of "quality first, service foremost" all along, offers honesty, passionate and considerate service so as to realize the dream-like living condition.

**bathx**<sup>®</sup>  
*"Part of your life"*

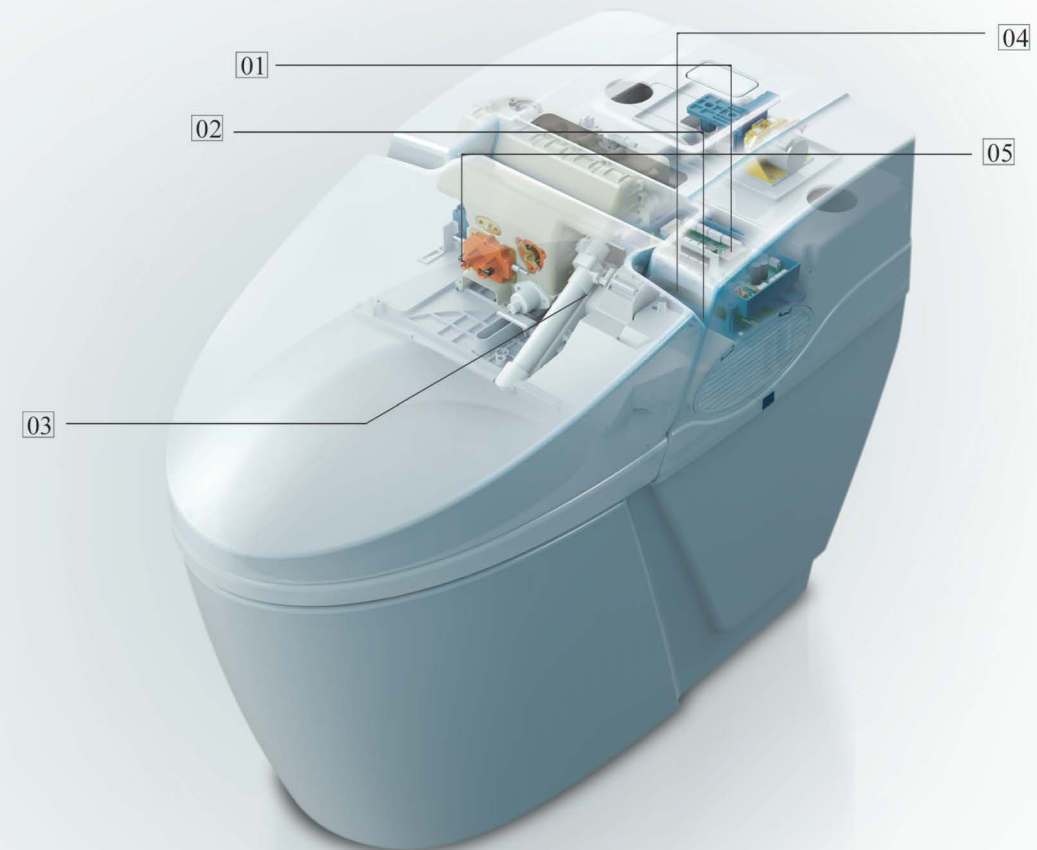

# bathx<sup>®</sup> TRO

*"Part of your life"*

bathx<sup>®</sup> TRO toilets offer unmatched quality, design and technology to bring superior comfort and cleansing, TRO comes with motion sensors, automatic flush, advanced bidet functions with personalized settings that let you fine-tune every option to your exact preferences, from water temperature to heated seats.

**INTELLIGENT  
Digital toilet**

## Leading Quality

### 01 High integrated intelligent main board design

Thanks to auto distributed system module design concept and unique micro computer & automatic detection function design, with the help of Toshiba CPU and imported spare parts, the digital toilet becomes more intelligent, stable, safe and sensitive.

### 02 Independent switch power design

Switch power design with UL and TUV approvals guarantee safe and stable working voltage. The digital toilet works with few multifunction, which is up to international top security level.

### 03 Ceramic cartridge design

The scalable jet lever is driven by steel strip. The cartridge is made of ceramic, which can afford being used for 200 thousand times.

### 04 High position connection place

The worldwide socket connector, JST from japan, is able to increase the coverage of height of insulated sealant of integrated main board, and guarantees each electronic component works safely under humid environment.

### 05 Security relief valve

The imported JEIL 12V low-pressure relief valve from korean allows tech washing pressure and intensity safe and stable.

### Protection for your health

Health & Care  
Move to wash  
Buttocks wash function  
Feminine wash  
Anti-bacteria material  
Filtration

### User - oriented

Easy installation  
Soft closing  
Jet self cleaning  
Light  
Anti-low temperature hurt

### Comfort & Enjoyment

## INTELLIGENT TECHNOLOGY

### FRESH WATER IS HOT TECHNOLOGY

Multi-function practical storage concept design, make interior space strewn at random have send, reasonable use. Daily access to easy and convenient, commodity conveniently accessible.

### MASSAG CLEANING

Hip cleaning: a single large hole cleaning nozzle, rough water, ensure all kinds of dirt can be effective to clean.  
Women cleaning: set up for the female flower is aspersed type cleaning nozzle, moderate water dispersion, convenient and clean the vagina, safety and considerate caring toilet for women.

### 360° SUPER SWIRL FLUSHING

Optimized design of the drainage holes opening Angle, the distribution of the position and guarantee to implement the lining of 360-degree rinse, rinse the faster, more clean.

### SEAT SLOW DOWN

Using the principle of damping design of decompression, the buffer device, ensure that sit around slowly closing, avoid sudden drop dramatically when a crash.

### WARM AIR DRYING

Ergonomics principle, good drying effect, shorten drying time, the traditional intelligent toilet to dry on the left or right, her wind temperature adjustable three gears.

### NIGHT LIGHTING

Don't open the other lighting at night, need to open the implement of the soft light can be convenient to the toilet.

### SIT CIRCLE HEATING

Sit coil temperature is set to 3 is adjustable, when sitting circle temperature significantly lower than the human body temperature, intelligent induction heating by circle; And application of low temperature burning technology, extra care.

# TOILET TECHNOLOGY

## 360° SUPER SWIRL FLUSHING

Optimized design of the drainage holes opening Angle, the distribution of the position and guarantee to implement the lining of 360-degree rinse, rinse the faster, more clean.

## INCREASE THE DRAINAGE PIPE TECHNOLOGY

Drainage pipe diameter 45 mm increase from to 50 to 55 mm, stronger sense of flushing, and drainage pipeline wall glazing, blowdown more smoothly.

## DUAL WATER- SAVING

Dual water-saving switch button clever design, focus on touch can be realized according to the normal. Dual water saving humanity design, different time with different blunt water reach the purpose of saving water.

## ENERGY SAVING WATER TECHNOLOGY

Drainage pipe diameter 45 mm increase from gb to 50 to 55 mm, stronger sense of flushing, and drainage pipeline wall glazing, blowdown more smoothly.

## 1250 DEGREES PORCELAIN FIRING

1250 degrees centigrade high temperature porcelain firing, antibacterial effect, good into CIXing, bibulous rate is low, environmental pollution, not a dirty, convenient daily cleaning of family health.

# CERAMICS

## Develop super cleanness of special glaze

Develops two special glazes namely sanitary glaze and Nanometer glaze, exclusively with super clean ability.

## Super strength flush water deracinates dirt

The super smooth surface and special concise piping design realize integral cleaning and super strength flush for blowdown, thoroughly, quietly and effectively flushing toilet.

## The considerate design pays attention to each detail

The shape design adopts the principles of aesthetics, ergonomics, hydrodynamics and structural mechanics to ensure its leading position in the industry; Vitreous ceramic made under high temperature; water absorption rate <0.2%, so its quality is stable and reliable.

# ECO. FUTURE. HUMAN NATURE

With the powerful research and development ability in products and superb product qualities, bathx has become one of the leading enterprises in bathroom world. Based on the administrative concept "customer first, elaborate production, perfect service", bathx is committed to the innovation target of "quality, variety and brand", outstanding quality has exceeded international criteria.

## Ceramic Technology

# TOILET Technique

## High-performance innovative flushing system

Our company's toilets have superior flushing system and can give you superior flushing effect. The four high-performance toilet innovative flushing systems satisfy the user requirement of the merchants, families, associations and organizations from the discharging, noiselessness, cleanness and water-saving. No matter what the consumers focus, the flushing, the water-saving, the secure and noiseless flushing performance or even the comfortableness, the cleanness as well as the exterior design, it can bring you perfect solutions.

### TORNADO flushing

Across age new irrigation methods, emitting a single column from the inside of toilet water, along the inner wall of well-designed toilet, whirlpool-style was washed down, the water achieve a strong flushing power beyond imagination.

## U.F. Soft-close toilet cover

The imported U.F. material is used and processed and formulated, which improves the cover's resistance to wear and pressure, making it durable. The human anti-static design has much sense of security.

The damping mechanical system ensures the smoothness and softness for opening and closing of the cover. The toilet cover can be conveniently disassembled, which is convenient for cleaning.

## Water-saving

BATHX water-saving toilet is up to the standard of the European water consumption. Compared to the traditional economic cistern, a family of four can save about 25000L drinking water a year. The flushing system of BATHX is supplied by the world-leading sanitary ware technical company.

The water-saving principle of the dual-flushing cistern offers choice of water consumption: the bigger button refers to 4.6L water while the smaller one refers to 2.8L water.

BATHX can supply many different ways of flushing in order to satisfy the various requirements of customers from different countries.

**bathx**<sup>®</sup>  
"Part of your life"

## Super whith self-cleaning glaze

The characteristics of nano ceramics mainly lies in the mechanical performance, including the hardness, low temperature ductile fracture toughness and such of the nano ceramic material. The mechanical properties, especially the hardness and strength in high temperature of the nano-level ceramic composite are greatly improve. Relevant research shows that nanometre ceramics have the advantage of reaching sintering densification at lower temperature. Moreover, the appearance of the nano ceramics is conducive to solving the strengthening and toughening problem of the ceramics.

BATHX Sanitary Ware uses the creative nano antibacterial self-cleaning glaze technology, and a high efficient antibacterial protective cover is formed on the sanitary ware. The antibacterial metal ion can break the cell membrane of the bacteria, continusly restrain and kill the harmful bactria. This antibacterial performmance has passed the certification of the national environmental protection authorities. The visibel high-close crystal glaze,the brightness and self-cleaning ability greatly surpasses that of the traditional products,which puts an end to the production of the bacteria and the accumulation of the dirt and is easier to clean. Health is visible!

## Perfect efficiency of super claening

BATHX cleaning technology has unique non-pored ceramic surface, which will not stain. BATHX's super bright and clean effect makes the surface of the sanitary wara economic , waer-resistant and very claen.

## Ergonomics

So far as the bathroom toilet developed, it is no longer the pure"place of natural call," but an extension of life enjoyment. Good design enables you to find inspirating in the barthroom. Based on modern quality life's human requirement of sanitary ware products, BATHX toilets are delicately made into top works. According to the curve arc of human engineering design, it feels more comfortable, with its height and width according with the natural characters of human body and can greatly relieve fatigue of the human body.Integrated with the precise calculation and smartly fashionable design,it ceeates a comfortable and healthy bathroom space for you.

## SUPer-big calibre,with all the interior glazed

C SUPer-big calibre,with all the interior glazed  
By using pipeline glaze technique for improve the drainage effect,Available to solve below problems:

1. Inside the pipe, the surface is rough, large water% absorption, for long time using may lead to feculence, even easy to be jammed.
2. Inside the pipe there isn't smooth,drainage cannot pass away.
3. If invisible crack inside the pipe ,and can not repair, water leakage will occur.

### Different dischage pipes are suitable for all of the architecture.

BATHX's different discharge pipe is specially for installing the toilet on the ready pipeline. It is especially convenient to be used in the renovative house. The discharge pipe can be installed at the P-trap or S-trap of any distance between 7cm and 35cm away from the wall.

### Diameter Sewer Road

BATHX the special large Sewer Road can be through easily by ø50mm, small ball.

## 2.3-second flushing is super clean

### Delivering the 2.8/4.6L water-saving toilets

NOwadays the water-saving toilets are coming into the markt one after another.However, it is worth noting that less water consymotion doesn't mean more water saving.It the water is too little,the dirt often can't be thoroughly flushed out of the chaanel,even causing blocking.And if the flushing more water cannot reach the certain dilution ratio,peculiar smell will leave. Therefore, the water-saving toilet not only demands less water consupcion but also needs to achieve the purpose of flushing the dirt.As the technical water-waving and environmental pioneer, we have been always making researches on the water-saving and envionmental products, which blows a "envionmental and energy-saving" wind in the sanitary ware market relevant to our life. The 4.6Lwater-saving and envionmental toilet,with its leading flushing technology, realizes the breakthrough of water saving, water impulse and and flushing effect. The advance technology of the 4.6L water-saving and envionmental toilethas distingushed advantages on water-saving, water impulse,flushing effect,ect.

- ⊙ With the water-saving technology, the 4.6L water can also achieve the fhusing effect as the 9L water!
- ⊙ The super water-saving system has the 3-inch flush valve,which has power water impulse and is more effective.
- ⊙ The TORNADO fhusing technology is the ost advanced fhusing technology to this day.It is noiseless and powerful infhusing.
- ⊙ The calibre of the discharge pipe is 20% bigger than the standard of Chinaang America, which effectively reduces blockage.
- ⊙ The water retention of the toilet is large.Using the CEFIONTECT technology, it is convenient cleaning.

- 18mm body & 18mm cabinet door
- Soft close stainless steel hinges
- Painting with UV protection
- 5 mm mirror

**Bathroom Furniture Technology**

			
Buffer Cabinet door, high-end hardware	Human layout	Dust-free paint	Easy sorting

# BATHROOM CABINETS & VANITIES

# BATHROOM CABINET

**High-quality material, unique technology,  
moisture resistant and durable in use**

Made of high-quality import Southeast Asia rubber wood to effectively prevent timber from cracking and synaeresis.

**Integration design, harmonious spatial layout.**

It brings even better integral sensory organ effect of bathroom and greatly improves installation efficiency.

Humanization design, classification storage in apple-pie order  
Human engineering is skillful adopted for each BATHX bathroom cabinet design to merge very considerate detail with appropriate functional design.

**With simple Europe style, plays a unique role in vogue tide**

collecting design styles of Europe bathroom furnishing tides, combining habit with favor of global household application and integrating unique design and utility functions.

# BATHROOM CABINET

**BUFFER CUPBOARD DOOR &  
DRAWER HARDWARE**

Cabinet door and drawer move in parallel in order to avoid the noise due to sudden collision and protect the main body of products at the same time.

Functional accessories come from international famous brands so that every hing and drawer may endure more that 400,000 times's test.

**INDUSTRY STANDARD &  
HUMAN NATURE DESIGN**

The bathroom cabinet and basin are designed according to the dimension of industry standards, which may eliminate the affects of such design upon bathroom structure to a maximum degree and provide the architects and designers with harmonious spatial layout.

Through constant tests, details consideration and properly functional design are integrated so that the products made by BATHX more comply with ergonomics and make people more comfortable.

**HIGH QUALITY MATERIAL  
SELECTION & PAINT PROCESS**

Through deep dry evaporation process and degreasing treatment, it shows good stability, not easy to deform or crack. through multilayer test, it is free of any hazardous gases and chemical compositions including formaldehyde and benzene and can prevent from degeneration and discoloration. Thus, it is an ideal material for high-quality bathroom cabinet.

**STORAGE FUNCTION SOLUTIONS**

Integrated cabinet design can save more spaces so that it is more convenient and simple to store objects. Cabinet functional design with strong functions can meet the demand of individual storage so conveniently that classified storage is order.
